---

Good morning Kate, I have spread the word to water programs in OPRA. I am told Ms. Solimanco has made inquiries in the past about drinking water concerns on Wind River. I would also be happy to field questions from her office if needed.

Subject: Inquiry from DOJ Community Relations Staff Person Re: Wind River Reservation Matters

---

Hi all:

At the request of Art Palomares, I responded to a call from someone in the Denver based Community Relations office at DOJ named Rose Solimanco. She is looking into some questions raised by Wind River tribe (specifics unknown) about environmental concerns. She has been looking into this since late November. She and I agreed to meet on February 11 to discuss her needs further, the basis for them and how best to proceed. From there, we can determine next steps. She apparently has already either spoken with or placed calls to several of our staff (e.g. Tricia Pfeiffer, Blake Huff, Stephanie Gliek). My sense from speaking briefly with her today is that she is interested in water permitting, discharges, inspections and enforcement on the Wind River Reservation. I will learn more on the 11th and then get back to each of you. In the meantime, could you please ask staff to direct any related inquiries to me.

Thanks

Kate
